

At the heart & height of senior residence communications.

covcommunications.com

Helping you enhance senior safety, comfort, and lifestyle in your residence.

We're here to simplify and unify all of your communication needs for independent or autonomous homes.

The Smart Home Phone That Includes Safety Features

Offer your residents and their families comfort and peace of mind with the only home phone plan that includes safety features.

- 911 call notification
- Incomplete emergency calls
- Off-hook notification
- Automated daily presence calls
- Emergency broadcasts
- Easy dial for safety assistance

Business Telephony With Superior IP Capabilities

Empower employee productivity & responsiveness by keeping them connected, accessible, and mobile at all times.

Internet - Building-wide Wi-Fi

Residents and their guests will feel more at home in all spaces of the residence as they roam around freely, able to stay connected to what and who they love.

IPTV

Offer them entertainment that speaks their language with customizable programming in superior picture & audio quality.

Senior-Centric Customer Service & Technical Support

Your reputation extends beyond your on-site services to that of your affiliates' and third party providers.

A recent Léger marketing study shows that Cov scored above 90% on customer satisfaction experience.

Rest assured that you & your residents are in good company.

Cost savings of up to 60% compared to other providers

A fully managed & hosted telecom service-subscription that

Increases senior-safety

Generates passive income

Reduces operational expenses

Saves you and your residents money

Promotes resident retention and acquisition
